Comunicar la ciencia desde los datos: competencias y desarrollos

Dra. C. Ania Hernández Quintana, Dra. C. María Aurora Soto Balbón, Lic. Amanda Terrero

**Hacer hablar a los datos
(formación e investigación)**

The background image shows a person's head and shoulders in profile, looking at a laptop. The laptop screen displays a code editor with a dark background and light-colored text, showing lines of code with various syntax highlights. A hand is visible pointing at the screen. To the left of the laptop, an open book with handwritten text in cursive is lying on a desk. The scene is dimly lit, with the primary light source being the laptop screen.

Gramática de las interfaces (nuevos diálogos)

Infraestructuras digitales (verificación y transparencia)

A person is sitting in a chair, holding a tablet computer. The tablet screen displays a scanned image of a handwritten document, likely a letter or a page from a book. The handwriting is in cursive and appears to be in Spanish. The person's hands are visible, holding the tablet and a blue pen. A notebook with lined paper is also visible on their lap. The background is dark and out of focus.

Enriquecimiento colaborativo de la memoria social

The background of the slide is an abstract visualization. It features a light beige background with a faint, radial grid pattern. Overlaid on this are numerous data points and clusters. These include small red dots, larger teal circles, and elongated, comet-like shapes with teal heads and dark tails. The overall effect is one of dynamic, expanding information. A solid blue horizontal band is positioned across the lower half of the image, serving as a backdrop for the title text.
